OBJECT

As an aspiring web developer, my objective is to secure an internship position where I can apply and further develop my skills in frontend and backend development. I am eager to contribute to real-world projects, expand my knowledge of web technologies, and gain valuable industry experience.

EDUCATION

University of Colombo School of Computing, BIT – undergraduate

Since 2022

I am in the early stages of my academic journey and am motivated to learn and contribute to real-world projects. I am a fast learner, detail-oriented, and possess strong problem-solving abilities.

Dr. Richard Pathirana College, Galle-Uluwitike —AL's

2017 - 2019

Technology Stream

SKILLS

- Proficient in HTML, CSS, and JavaScript, with a strong understanding of responsive design principles.
- Experience with frontend frameworks such as React.js and familiarity with backend technologies like Node.js.
- Knowledge of version control systems like Git and collaborative development using GitHub.
- Familiarity with database management systems, including MongoDB.
- Strong problem-solving abilities and attention to detail in writing clean and efficient code.
- Design skills using Adobe XD, Photoshop, and Illustrator to create visually appealing user interfaces.
